

# Why EtherScope® nXG

The EtherScope™ nXG is a portable network expert, easy to use for network technicians, but powerful enough for network engineers. As a multi-technology, all-in-one handheld network analyzer, it enables engineers and technicians to get more done faster, from deployment to maintenance, troubleshooting, and documentation of their ever-changing Wi-Fi and Ethernet access networks.

- Offers native support for NBASE-T, 1G/10G Ethernet, and Wi-Fi 5 (With Wi-Fi 6 Visibility)
- Fully integrated Wi-Fi and wired Ethernet analysis and discovery
- 10G Line-rate throughput testing and packet capture in a lightweight, handheld instrument
- Integrated network topology mapping plus AirMapper Site Survey for Wi-Fi heatmaps
- Empowers technicians to quickly verify multiple VLANs and SSIDs
- 24-hours RF traffic statistics
- Document and collaborate on test results in Link-Live Cloud Service
